

BLIFE

BULK PRODUCTS CATALOGUE 2024

www.blifesrl.it

BLIFE,

a life devoted to the *Organic*

Blife srl was founded in 2016, with the underlying idea of selecting quality organic raw materials. The experience in the organic field dates back to 2007 when one of the current managers took her first steps in the world of *Organic*

Blife is certified by Bioagricert and it operates along the main channels of the organic field. Nowadays, Blife srl is a company that packages and distributes organic raw materials in Italy and abroad under its own and other companies' brands.

The rapid development of recent years has made it possible to invest in cutting-edge materials and machinery, therefore it is possible to choose both plastic and paper packaging.

Thanks to a very modern automatic packaging line, we have the possibility to pack a wide range of organic products in the format and with the desired brand.

In order to offer the customer a complete choice of organic raw materials, the product range includes: dried fruit, dehydrated vegetables, oil seeds, flours, cereals, superfoods, dehydrated fruit, sugars, cocoa and organic sweeteners.
